

## VICTORY LOAN MUST SUCCEED OR FAIL IN NEXT FEW DAYS

Appeal Made By Headquarters To Works To Put Full Force  
Behind Drive During The Rest Of Campaign.

LEND HIM A LEG

The Victory Loan drive is drawing to a close.

Whatever remains to be done must be accomplished in the next few days or the opportunity will be gone forever.

This is the last great popular war loan. It is in reality the "last chance" the people of the Sixth Federal Reserve District will have to invest in the Liberty and Victory issues of Government securities. It is now or never.

The quota assigned to this district has been nearly reached. But unless every person who can, even through a sacrifice of luxuries or comforts, invests to their limit it might be a failure. In all past campaigns the South-east has responded nobly. It must not fail now in this final drive.

The loan must be a success. It has behind it the solemn call of a great national duty to our soldiers and sailors;

the call of the nation's honor, and the imperative call of its duty to the rest of the world.

An appeal has been sent out from headquarters to the workers to put their shoulder to the wheel during the remaining days of the drive; to pull together and push together and wind up the campaign with a huge over-subscription. Some counties are lagging behind. Most of the counties will go over. To fail now would leave a blot on the record of the county which does not reach its quota. That blot would remain forever because there will not be another chance to "come back."

The crowning work of patriotism for this district would be for the people to make the Victory Loan the greatest of all loans—to put every county in the district over the top. Then we could take pride in the feeling that we had "finished the course."
